**Water Report:** Meters were read, water testing done. There is a leak in a setter at the school. Charles suggested ordering some water/wastewater supplies due to supply issues and time that it would take to get here. A couple of water leaks have been fixed.

**Wastewater Report:** Attended OMAG Sewer expo, sludge judge turned out excellent, resulting an average of a foot of sludge in each pond. This will impact the ACOG grant if we are awarded it. May be able to adjust funds to help figure out why the ponds aren't leveling. We may need to get an engineer in here to discuss what our options may be. Add to special meeting, what can we do without contracting an engineer, to figure out what we need to do to correct the leveling issue in the ponds.

**Check Valves/Motors:** Motion made by Dusty King to remove these items from the agenda
