- ACOG Grant Update:** Pumps installed, controlled box installed, timer installed and will run between midnight and two am, will run until the field is soggy or the lagoon levels are low enough, generator site manager has been out and is coming back on Thursday, may need to put a fence around it
- Water Report:** Meters read, monthly water testing done, valves have been replaced, we've got one fire hydrant that will not shut off
- Fire Hydrant/Water Maintenance Program:** Kris Goff from Grade Works Construction was here to discuss this maintenance program. They would spend a week to go through the Town and locate all the valves and evaluate what works and what doesn't, we spend a lot of time trying to figure out how to get the water shut down to be able to fix leaks in Town. Something to think about.
- Wastewater Report:** CCTV testing has been done, will be receiving report in a few weeks, there were several lines that had tree limbs in there, sprinklers have been running.
- Root Control Grant:** Motion made by Dusty King to approve applying for the grant
