Water Report:

Meters were read, water testing done. Had some issues with low pressure. Charles checked the pressure regulator and we opened up the valve some more and when the tower overflowed we closed it back down.

Wastewater Report:

Been working on getting the lagoons down. Small issue up at the school where solids don't seem to be moving like they should. Need to see about getting a truck out here to fix this issue. The new lift station pump has been installed. ORWA will be out to map our lagoons and will be performing a sludge judge test.
